

Experience

Aura Founder Wearable AI · Software · Backend	Jun 2025 - Present
- Built and tested a wearable AI system across hardware, software and backend. - Investigated issues across audio capture, APIs, speech processing, memory and agent chat. - Worked with Flutter, FastAPI, WebSockets, Deepgram, Firebase, Pinecone and Redis.	
Open Source Omi AI · Voice · Windows · Security	2026
- Investigated and reported technical issues across AI, voice, Windows, backend and security systems. - Submitted code fixes, tests and technical proposals, and worked through maintainer review. - Authored 21 issues and 7 pull requests across the project.	
AI & ML Intern AICTE x Google TensorFlow · Computer Vision · TFLite	Oct 2024 - Dec 2024
- Worked with TensorFlow and Google ML tools across computer vision, object detection, TFLite and image classification. - Used transfer learning and data augmentation in mobile ML workflows.	
Associate Reliance	Jul 2024 - Oct 2024
Handled customer queries, records, POS activity, reporting and day-to-day operational issues.	
Research Assistant PES Modern College	Sep 2023 - Mar 2024
Maintained documentation and supported research workflows, digital resources and student workshops.	

Projects

Mia Agent Systems · Context · Tool Use · Code Execution	2026
Built a personal agent system that coordinates AI tools, execution steps and software tasks. GitHub	
Voice AI LiveKit · Deepgram · ElevenLabs · Gemini	2026
Built real-time voice systems involving speech recognition, streaming, tool use and conversation.	

Skills

Debugging	Troubleshooting · Root Cause Analysis · API Debugging · Testing · Documentation
Software	TypeScript · C/C++ · Python · FastAPI · WebSockets · Flutter · Git/GitHub
AI	LLMs · AI Agents · Voice AI · Prompt Engineering · Context & Memory

Education

University of Pune (SPPU) B.Tech. in Artificial Intelligence & Machine Learning	2022 - Jun 2026
