Education

University of Pune (SPPU)

📅 2022 - Jun 2026

B.Tech. in Artificial Intelligence and Machine Learning

Experience

Aura

📅 Jun 2025 - Present

Wearable AI Personal AI Hardware + Software

- Built Aura, a wearable AI system across hardware, software and backend.
- Designed and iterated its physical enclosure and form factor.
- Built and tested the software connecting the device, AI and backend, while contributing frontend and design work to Omi.
- Worked on simplifying the device and its interaction for everyday use.

AI & ML Intern – AICTE via Google

📅 Oct 2024 - Dec 2024

TensorFlow Computer Vision ML Kit

- Built and evaluated computer-vision models with TensorFlow and ML Kit for edge deployment.
- Worked with transfer learning and data augmentation.

Associate – Reliance

📅 Jul 2024 - Oct 2024

- Worked across store operations, customer service, POS, reporting and brand coordination.

Research Assistant – PES Modern College

📅 Sep 2023 - Mar 2024

- Supported digital-literature work, library documentation, student workshops and research workflows.

Featured Project

Mia

AI Agents Context Tool Use Code Execution Orchestration

Personal agent system for context, tool use, code execution and orchestration. Built around a personal assistant that can work across software tasks. Mixture of claw, hermes, and Gstack

🔗 github.com/thesohamdatta/Mia

Voice AI Agents

Livekit ElevenLabs Gemini Live

Built voice-agent experiments focused on natural personal-assistant interaction.
